CAPA BOOK 2010-2013 - in progress

In 2008 the Cabo Mondego Section of Portuguese Surrealism was started by the Portuguese poet **Miguel de Carvalho** together with **Rik Lina**, who started living in Figueira da Foz every half year since 2007. Painter/architect **Seixas Peixoto** and poet **João Rasteiro** joined the Section at once, soon to be followed by the painters **Pedro Prata** and **Luiz Morgadinho**. During the following years sculptor **Cristina Vouga**, painters **Alberto D'Assumpção** and **Alexandre Magno da Silva** joined the sessions.

Since then the histories and “Champs Magnétiques” of CAPA and the Cabo Mondego Section are closely interwoven in their research of automatism, **Jan Giliam** comes to Portugal almost every year to join the sessions. Performances were made during exhibition-openings of the Section or different members of the groups. Works were sent to the several international surrealist manifestations.
